

Required Memory Verse Tracker – The book of LUKE 2024-2025

10 points per verse. Verses should be recited in batches (not 1 a day, etc.) Listener may offer help, but deduct 1 point for each hint or for word missed. A quizzer may catch their own mistakes and repeat the verse correctly without penalty. Minimum points per verse is 5. If you miss over 5, score is 0 for that verse. Deduct a point for transposed words or phrases (words all there but in wrong order). Master memory may be other verses, paragraphs, or chapters, and may include some required verses. Do either Required Memory Verse or Master, not both.
